- Replacement of Diaphragms & Stem Seals
- Steam Trap Repair
- Valve Trim Repair
- Steam Trap Survey

Steam, Valve, Controls, Heat Transfer, & Process Control Sales & Repair

Equipment & Systems

We supply entire systems and handle the entire process in house from CAD drawings to start-up.

SELECT TYPES OF ENGINEERED EQUIPMENT

- Digital Controls
- Pneumatic Controllers
- Solenoid Valves
- Control Valves (Modulating)
- Butterfly, Gate, Globe, Check, Swing Check & Ball Valves
- Rising Stem Ball Valves
- Condensate & Vacuum Pumps
- Instantaneous Water Heaters
- Heat Exchangers
- Removeable Insulation
- Tanks & Separators
- Expansion Joints
- Y-Strainers

Repair By Exchange ("Turnaround") & Remanufactured Equipment

Repair by Exchange, which is our "Turnaround" program, offers you immediate access to remanufactured valves at our best prices. Repair by exchange is when you exchange your old valve for a remanufactured one. We then remanufacture the old valve and put it back into our inventory. Alternatively, many customers like to use the remanufactured old valve for a spare. We have many remanufactured actuators, valves, pilots, blend valves and controllers in stock.

VALVE BRANDS SERVICED INCLUDE:

- Armstrong
- Cla-Val
- Fisher Controls
- Leslie Controls
- Spence
- Spirax-Sarco
- Warren Controls
